1. Introduction

The IB*2.0*685 patch is introduced to implement reports that would help Billing users to identify patients that were treated under Other Than Honorable (OTH) authority and provide details about eligibility changes and VA care provided to these patients. The reports are developed in DG namespace but need to be available to both Registration and Integrated billing users.

The billing users of the Patient Billing Reports Menu [IB OUTPUT PATIENT REPORT MENU] menu need access to REGISTRATION menu options Former OTH Patient Eligibility Change Report [DG OTH FSM ELIG. CHANGE REPORT] and Former OTH Patient Detail Report [DG OTH FSM DETAIL REPORT] from patch DG*5.3*1025.

The Integration Control Registration #7189 was entered and approved to allow the Integration Billing application to use Registration application menus.

2. Purpose

These release notes cover the changes to implement reports that would help billing users to identify patients that were treated under Other Than Honorable authority and provide details about eligibility changes and Department of Veteran Affairs (VA) care provided to these patients.

3. Audience

This document targets billing users and administrators that review Former Service Member's (FSM) past encounter and prescription details to determine if potential back-billing is necessary.

4. This Release

The following sections provide a summary of the new features and functions added, enhancements and modifications to the existing software, and any known issues for IB*2.0*685.

4.1. New Features and Functions Added

The following are the features and functions added by IB*2.*685:

- Added the Former OTH Patient Eligibility Change Report [DG OTH FSM ELIG. CHANGE REPORT] and the Former OTH Patient Detail Report [DG OTH FSM DETAIL REPORT] from patch DG*5.3*1025 to the Patient Billing Reports Menu [IB OUTPUT PATIENT REPORT MENU] to identify patients that were treated under Other Than Honorable authority and provide details about eligibility changes and VA care provided to these patients. This option assists billing user in reviewing Former Service Member's past checked out encounter and prescription details to determine if potential back-billing is necessary.
